# Edit 5: see comment and unjack tits accordingly. These seem to be NFTs that were airdropped into the account that Gamestop is using to move money. The Gucci bear knockoff trail is too convincing for me not to strike this for now. ~~Edit 4: Please Read Before Continuing! Mods, feel free to label this inconclusive until we figure this out.~~

>~~A) So people are saying the NFTs are all being sent from one address to a bunch of different addresses, and that this a scam. I can confirm the NFTs are being sent to multiple addresses, including this one. Check here for the most recent transaction.~~ [~~https://etherscan.io/tx/0x2a4e95fa7b462f8d6dc8f73f974fc3593c987f7683aa06d60746770aea7b261e~~](https://etherscan.io/tx/0x2a4e95fa7b462f8d6dc8f73f974fc3593c987f7683aa06d60746770aea7b261e)~~.~~

>

>~~B) Did a little more digging and all of these NFT transactions are pretty recent and still ongoing. Is someone tossing fake NFTs onto a wallet that happens to be receiving millions in IMX tokens from Gamestop? They're paying over \$100 in transaction fees per transaction. And not every wallet is getting the same NFTs.~~

>

>~~IMX started sending the tokens on 2/1. These NFTs started showing up on 2/24. At that point there were still 2M IMX tokens being sent over every time, until 3/1. I'm not sure if this is a scam or the actual beast moving into place. I'll dig some more. Thanks for the comments everyone, this may be a nothingburger or the actual marketplace, we'll see.~~

~~Ok so I have no idea if someone found this first, but I would imagine the hype would be dialed to 11 if this is legit. It seems legit, but my tits have already fallen off so they can't get jacked any more. I stumbled onto this and am rushing to write this up so the community can go ahead and look through these. Enjoy!~~

\*\*~~TL;DR~~\*\*

~~It appears the address where Gamestop is sending a lot of its IMX tokens has been minting NFTs from some big names, including Gucci, Louis Vuitton, Nike, Adidas, and even Snoop Dogg and Elon Musk! A lot of these transactions have been happening in the last few hours, some are from the last few days. I think we're finally getting the "content" for the marketplace!~~

# Main Course

~~Fuck appetizers, leggo!~~

\*\*~~You can find the different NFTs being minted~~\*\* [\*\*~~here~~\*\*](https://etherscan.io/tokenxns-nft?a=0x1157a2076b9bb22a85cc2c162f20fab3898f4101&p=1)\*\*~~!~~\*\*

~~Not all have the actual images, but some do. I've seen like 3 Gucci NFTs that are bears spinning around. Like this one, for example:~~

~~EDIT 1: someone pointed out the "Original Content URL" appears to be a scam bc it's 'guccl' instead of 'gucci'. I clicked on it and it appears it's just a link to the gif, so no worries. Thanks for pointing that out~~  
u/nullstate7~~.~~

~~So how did I stumble on these? Well, I was reading some of the recent posts on here regarding the IMX milestones and decided to make a Sankey diagram to figure out where the money is headed (Haven't make that post yet). By happenstance, while tracking the erc20 IMX transactions and putting them in a spreadsheet, I saw a tab for erc721 tokens and clicked it and found these.~~

# Which Wallet is This In?

~~Once I make the diagrams I want to make, I'll do a separate post, but here's what I did if you want to follow my work.~~

~~GME has been receiving its IMX tokens for its milestones at this address:~~

\*\*~~0x8c1dcea14acce463d8806928860899ad6c8f615b~~\*\*

~~That address was sending a whole bunch of IMX tokens to this other address:~~

\*\*~~0xb7fabf725d60700ff57bae72b666dc55646cde48~~\*\*

[That's tens of millions of dollars fyi](https://preview.redd.it/cqxd4cy9qsk81.png?width=1383&format;=png&auto;=webp&s;=d943e12b77249b83aa2cf73357c4bd36350d4c7e)

~~And this wallet was sending all that money to this other wallet:~~

\*\*~~0x1157a2076b9bb22a85cc2c162f20fab3898f4101~~\*\*

~~This last wallet is the one with the NFTs.~~

[That last Gucci NFT is the bear one I copied above](https://preview.redd.it/wwiqpd79rsk81.png?width=1882&format;=png&auto;=webp&s;=55953a7fb98bada4468c37c0b3d3eab430e38ea7)

# Snoop Dogg Gets His Own Title

~~Da da da da da it's the motherfucking d-o-double-g. SNOOP DOOOOOGG!~~

~~I legit have goosebumps writing this because we have some big names in these NFTs. This marketplace is going to be a lot more legitimate than anyone outside the loop expects. And imo it legitimizes some thoughts we had about potential partners, including Snoop Dogg, who has historically been bullish on Gamestop. Snoop Dogg if you're reading this, let's smoke a joint together post-moass, yea?~~

[Pic not showing yet, really wanna see what these look like ■](https://preview.redd.it/2r16aat9ssk81.png?width=1861&format;=png&auto;=webp&s;=fca08440867a5540c25bcc10f170acb4c8d12d58)

~~And here's a bonus Elon Musk NFT ■~~

[Pic not showing yet, but there we go](https://preview.redd.it/lsn1a7rissk81.png?width=1882&format;=png&auto;=webp&s;=88fd32a10191de45ba9d2a27bcc150ec3c5815aa)

~~Jack tits accordingly.~~

~~Edit 3: I've gotten some comments about the Gucci NFTs being fake because those were a limited series and it appears that there are addresses that mint a bunch of these and send them to different addresses. I've had 2 apes send me examples of this, though none of those interacted with this wallet. If someone has evidence that these are fake, please let me know and I'll edit the post as needed. The argument "those were a limited edition, so these are obviously fake" isn't a good enough comment. I'm looking for and sharing verifiable data I've found. And I can't ignore that Gamestop sent millions of dollars worth of IMX to and through this wallet. I've had apes confused about the link to Gamestop, so here's the link as simple as I can make it:~~ \*\*\*~~IMX --> Gamestop --> Wallet A --> Wallet B (the one minting the NFTs).~~\*\*\* ~~Where the money goes after that? You'll have to wait for my next post...or like...look this up yourself, it's all public and I give you everything you need to look all this up yourself.~~
