Look at the volume from AH yesterday and the volume today in the first hour. Unless institutions are selling all of their shares where is the volume coming from. Apes have been DRSing and Holding why would we sell now Imfao. If Fomo is happening who are they buying the shares from. Sounds like Citadel is selling a bunch of fake shares and are trying to drop the price at the same time. SEC is trash and the MSM is full of shit. Disgraceful markets continue to be manipulated!! Have a great day bois and girls. GME 2022!!!
