So I am now 100% DRS GME and have been Zen watching all of the corruption at it's finest. But today I feel very torn and hoping somebody can shed some light. Have been very impressed with GME chairman in his past accomplishments and have been excited to see what he will do with this Co. But I have to say after watching all of the posts about Bed and bath it's making me wonder Y? So After Cohen announced his interest in them their stocks have taken off and are now all over WSB. Hopefully somebody can help explain how this is helping GME? I mean just seems to be a huge conflict of interest. Justs seems to me that's a ton of people buying BBBY that should be buying GME. That's kinda like Wendy's promoting McDonald's. I'm so smoothe brain so before I make judgement please explain y?
