Excuse the clickbaity title but it was necessary.

Just got finished watching a YT documentary on the founders of Bored Ape Yacht Club and the messages and meaning of the nft's they create. I implore anyone who owns one -I don't and never have- to go and watch it.

Never been that interested or in the know when it came to nfts but it just kind of boiled my blood that this shit has hit the mainstream and popular culture as a kind of trojan horse to convince the "normies" to flaunt this nazi troll propaganda.

Thought this was pertinent to GME and hopefully it won't get removed like it was on SS considering Gamestop is launching a marketplace.

If you have the time please go watch this. Not affiliated with the channel at all. Thanks.
