GameStop is still being valued in retail multiples. When it finally gets re-rated into tech multiples, look out!

Notable PS ratios:

Tesla: 21.19

AMC: 4.11

Robinhood: 5.25

Roblox: 11

OpenSea (based on value at funding raise): 15.6

This is without squeeze, short interest, borrow rate, zero revenue counted from future marketplaces or crypto/NFT endeavors, any of that stuff.
