Hello all together,

Its only my opinion! None of this is financial advice, I Can't travel in the future...

I read a lot of posts about this mystic number 7-4-1.

There are many of you who thinks THIS can't be a coincidence!

May I think so, I really think (only my opinion) that is about an upcoming split of 3 pieces for the year 2022
!? MAYBE?

If you say : $7-4 = 3$

$4-1 = 3$

I Don't know where i saw it, bit there was a discussion about how many quantity the split will be (if there is an split for this gme) and one user said about a three pieces split would suit.

And now, have a look when the price would be about 50k/stonk and there is an split for 3, than we have about 16,7k per share, and also for 150 k /share , a split for $3 = 50 \text{ k /share}$ and so on.

I don't know in which price categorie there will be perhaps an stonk split, but i really really think this would be coming for next year, maybe?

! Remindme 4 months

Did someone know with more brain, with a split there must be an share recall??
