Hello,

So in reference to u/ratioatblessons post <https://www.reddit.com/r/Superstonk/comments/mnyevz/everywhere/>

I want to focus on the monitor on the right.

<https://preview.redd.it/1ar3jcq8k3671.png?width=1053&format=png&auto=webp&s=f162b80f475933e33f47e41a9831e2d16becf99d>

So looking at this photo. (The Game is called "~~Rim World~~ Prison Architect) The Names from top to bottom appears to be-Marwood-Southmore-Ward-Howel(l) (Edited)

Its difficult to read, but looking at the rest of the photo. There is a classroom on the left and side, and just below what appears to be some sort of factory. On The right hand side appears to be a priest or church of some kind. Also note which side of the hall they are standing on. Howel on the left of the corridor and the other 3 on the right.

I believe this is references to specific location in Houston Texas, thats right, not Austin.

So The one im very confident on, is ****Southmore**** and ****Ward****. So they are on the east side of the hallway. Now going back through some history of houston. The central area is broken down into wards. Since its the 3rd character. I believe this is the 3rd ward district of Houston.

****SIDE NOTE: But maybe not so side.****

Info on the 3rd ward. [https://en.wikipedia.org/wiki/Third_Ward%2C_Houston](https://en.wikipedia.org/wiki/Third_Ward%2C_Houston) "Third Ward is a predominantly African-American community. As of 2011 over 13,000 people live in Third Ward."([36])(https://en.wikipedia.org/wiki/Third_Ward%2C_Houston#cite_note-TurnerUHFoc-36) As of 2019, the area has gentrified rapidly with a surge in population, racial diversity, and cost of living. "

<https://www.msn.com/en-us/money/realestate/third-ward-residents-race-to-preserve-the-past-as-new-condos-townhomes-change-neighborhood-landscape/ar-AAL5nWU>

" The Third Ward is one of Houston's hottest neighborhoods. Brand-new townhomes and condos are changing the landscape of the historic Black community. "

It appears not everyone is happy regarding the changes happening in the 3rd ward. I wonder if this has any bearing on ratio top comment on the post. Perhaps we are seeing, shady rental practices in the 3rd ward, forcing residents out?

<https://preview.redd.it/jh9rldado3671.png?width=540&format=png&auto=webp&s=35fcc9275653cf327dc7819de78f5f3b0171aefe>

END SIDE NOTE

The 3rd ward, between a school and a church, to be precise. So let's have a look.

3rd ward. Got it, Notice the two universities & Southmore?

<https://preview.redd.it/q9hgvsy6l3671.png?width=658&format=png&auto=webp&s=f6cb74d4194521fdd6ed6220f7e452a78460e4c5>

So What about this church across the hall, or road. Zooming in on Southmore street. There is an interesting 3rd school that specializes in the energy sector. (the factory perhaps from the game photo) a high school, across the street. Very close to the two universities.

<https://preview.redd.it/h9pjz01fl3671.png?width=720&format=png&auto=webp&s=90868a2ee96ed7f93abbdbf7fe97224e391e2391>

[https://en.wikipedia.org/wiki/Energy_Institute_High_School](https://en.wikipedia.org/wiki/Energy_Institute_High_School) the first of its kind, energy focus breeding ground.

What RAB was alluding to about this school, I have yet to solve. I don't know if it in itself is interesting, a former student? Fundraising? I haven't had a chance to look. Its proximity to the universities is also interesting.

Moving on to Marwood and Howel. So I have some multiple theories on this. I'm gonna start off actually with my weaker theory.

THEORY 1.

Which is these two companies, located very close together on the west side of town.

<https://preview.redd.it/qb8e7n32p3671.png?width=615&format=png&auto=webp&s=125260173138cfe12c46869594b7d8e95baa00dd>

Perhaps these two companies are intertwined, related to citadel, or the school. I'm not sure.

THEORY TWO.

Marwood. Which the character on screen is on the east side of the hallway, and Marwood is on the east side of Houston.

So, googling Marwood Houston.

<https://preview.redd.it/bix354fpq3671.png?width=1332&format=png&auto=webp&s=3e957586aaf4ba85cf72a75c734000d8f8b9da9>

It's worth noting that MARWOOD, according to Google is technically just the small section just below the highway, stopping before you hit that massive tree line. There appears to be a lot of energy related companies around, warehouses, manufacturing etc.

<https://preview.redd.it/h2itneh1q3671.png?width=1181&format=png&auto=webp&s=8f7487c3c94b691e32b47c2679bcc4109929968e>

There is a Kenny St. Lol.

Zooming in a little to see the companies name a bit better.

<https://preview.redd.it/hiq9q5jvp3671.png?width=1464&format;=png&auto;=webp&s;=574f46be3dd7d198caa20a1b72aebf72babab99b>

Alot of the companies on the left appear to be chemicals companies, biotech. Manufacturing etc. On the right, mostly just manufacturing.

Yet again, i dont know exactly what RAB wanted us to find out in this area. Company of significance? Did citadel just buy that giant plot of land south of Marwood? Im not sure.

THEORY 3. Howell.

I beleive this is actual a reference to HowellVille Texas, Which some small town back in the 1920s. blah blah blah.

[https://en.wikipedia.org/wiki/Howellville,_Texas](https://en.wikipedia.org/wiki/Howellville,_Texas)

Which is on the west end of Houston. (The character is on the west side of the corridor in the picture)According to Wikipedia. This is the GPS Cords, Just South of Brays Bayou (The water lake thing) Note the ***energy corridor*** at the very top of the pic.

<https://preview.redd.it/wndvwqtor3671.png?width=1180&format;=png&auto;=webp&s;=06e077866db99b631f4f4219b7e64d43bde886ef>

Zooming in a bit.

<https://preview.redd.it/73l9ygr2s3671.png?width=1316&format;=png&auto;=webp&s;=f0817a9757d170a1ec59c69e9e70f8a451c2b9e9>

That Shell Technology Center is interesting. but nothing to me stand out, yes there a school and a church in right here as well. but hmm. not sure.

But actually lets zoom back out and head to that energy corridor (Rim World, characters are standing in a corridor....)

<https://preview.redd.it/63czwtu9t3671.png?width=1822&format;=png&auto;=webp&s;=056fd26de688e3b1283512d27c57c249e7d3fed8>

So Looking at this photo there appears to be more energy related companies. Siemens in the bottom left. One thing that caught my eye is that large centre building with the odd shapes with its design. I dont know what it is. but it appears interesting, because there is no listing for what it is.

But on the left there is also something that caught my eye, Which is that BB Centre for High Performance computing.

[https://www.bp.com/en/_us/united-states/home/who-we-are/technology/center-for-high-performance-computing.html](https://www.bp.com/en/_us/united-states/home/who-we-are/technology/center-for-high-performance-computing.html)" Located in Houston, bp's state-of-the-art Center for High-Performance Computing (CHPC) is equipped with over 16.3 petaflops of processing speed, making it one of world's largest supercomputers for commercial research" (Energy Sector research)

Appears related, somehow.

So thats where i am at. The "Rim World" game picture, is alluding to certain areas in Houston Texas, With a Focus on schools and the energy sector.

Any help would be appreciated.
