**GameStop** (NYSE:**GME**) Last week, U.S. authorities launched an investigation into alleged illegal trading tactics by short sellers. GameStop investors, mainly in the communities dedicated to the stock on Reddit, claim that GameStop's trading performance has been illegally manipulated by short sellers. The news of the investigation has livened up sentiment among investors, who were expecting some action to be taken by U.S. authorities. The investigation is still in its early stages and nothing has been proven yet, nor has anyone been charged.
