#The rate of new CS accounts over time :

34,000 in October

15,000 in November

17,000 in December

10,000 in January

8000 in February (28 days)

10,000 in March

12,000 in April

10,000 in May

4500 in June

****10,000 in July with still a few days to go!!****

Also, don't forget that GameStop's 2nd quarter ends Saturday July 30. A ****BIG**** Q2 official DRS number from GameStop (55% of free float?) could have a staggering effect on FOMO investors and FOMO DRSers!

****To all who were keeping "some" or "X" at your broker****, you could now, if you want, DRS your additional dividend shares (3/4 of your broker shares) and still have your original "some" or "X" at your broker. This would significantly speed up locking the float!

#How to DRS from almost any broker, IRA, or buy direct from Computershare anywhere in the world:
