Is_self: False

Hi everyone! I hope everything is well. I have been thinking a lot about how one person can change the world, inspired by this song – [One Man Can Change The World](<https://www.youtube.com/watch?v=GBVotNefYME>), so I wanted to put together a list of what I am doing in my life and what I have learned that can help influence the future. As always, any feedback is welcomed!

What I'll cover:

- * Learning for myself what is going on – cultural influences, financial industry, government
- * Supporting the companies that I love by using their services or buying their products
- * Investing in companies that I believe have incredibly high value compared to their current price
- * Sharing the information that I have learned!
- * Looking towards the future :)

So what is going on? For those who are not aware, **there is currently a financial crisis looming on the horizon** that stems from rectifying years of ongoing fraud in the industry. Evidence? [Recently reverse repos hit an all time high.](<https://money.usnews.com/investing/news/articles/2021-06-07/feds-reverse-repo-volume-hits-all-time-high>) [Cash-heavy financial institutions have been loaning money to the central bank overnight at 0% interest in increasing amounts since March.](<https://www.nasdaq.com/articles/fed-reverse-repo-volume-hits-record-high-2021-05-27>) Reverse Repos provide liquidity in the financial industry. To quickly explain, think of it like this – if you have a job, that job pays you a paycheck which becomes liquid cash the moment it hits your bank account. You can then use this liquid cash to pay for things like a car payment, rent, consumables, etc. However, if you don't have enough liquid cash, you are going to have issues around the time rent is due. So, what do you do? You put it on a credit card and pay it off with the next paycheck (please do not do this unless you really have to, but stick with me). **Reverse repos are a way for large institutions like banks to “pay for their rent” on credit from the government, because they know they are getting a paycheck the next day.**

Okay, so our financial ponzi...ehm, system - banks and associated funds are having a problem meeting their financial obligations and they are taking out record breaking daily loans to continue doing business. So where's the fraud?

Please keep an open mind. I know these topics are controversial. All of these are connected. (This is a good time to mention, I am not associated with any group, organization, or movement. **I am an individual** and these are my individual views)

[A very insightful discussion on the big picture](https://www.youtube.com/watch?v=we02zT-IME4) please judge for yourself - [source](https://www.reddit.com/user/TheLunarnautics/comments/npw3lz/marie_antoinette_her_son_payseur_family_trust/)

So, what does this mean? In short, **the government is controlled by money, money is controlled by the central banks, the central banks are owned by the largest banks in the world, they set up a fraudulent system that we have been living in our entire lives, and that system is about to collapse.**

So what am I doing about it? **Investing and supporting** companies who's current stock price is artificially suppressed and I believe are SIGNIFICANTLY under priced AND telling everyone I know about it (such as here!). Here's some information about my favorites:

GME - [Game Store](https://www.reddit.com/r/Superstonk/comments/njln8o/draft_i_have_done_my_best_to_summarize_the_gme/?utm_medium=android_app&utm_source=share) who is revolutionizing the industry with blockchain and NFT's

AMC - [Movie Theater Chain](https://www.reddit.com/r/amcstock/comments/ns3mga/amc_dd_compilation/)

BB - [Full Self Driving (reinvented) company](https://www.blackberry.com/us/en/company/newsroom/press-releases/2020/plus-chooses-blackberry-to-power-its-class-8-truck-automated-driving-system) – [Due Diligence Compilation](https://www.reddit.com/r/wallstreetbets/comments/ntvrr6/bb_consolidated_dd_why_last_week_was_just_a/)

What else? Learning about crypto! Here are a few of my favorite:

BAT – [Basic Attention Token](https://basicattentiontoken.org/)

DOGE - [Dogecoin](https://dogecoin.com/)

HBAR – [Hedera Hashgraph](https://hedera.com/hbar)

LINK - [Chainlink](https://chain.link/)

MATIC - [Polygon](https://polygon.technology/)

RVN – [Ravencoin](https://ravencoin.org/)

So, with all this going on, what could the future look like?

[Decentralized Finance](https://coindoo.com/what-is-the-future-of-decentralized-finance-systems-like-crypto/) (DeFi) – basically finance without banks and brokers

[Crypto Debit Cards](https://www.nasdaq.com/articles/will-the-recent-addition-of-coinbase-card-supercharge-the-future-of-crypto-payments-2021)

[Real-World Use Cases for NFTs](https://www.makeuseof.com/real-world-use-cases-for-nfts-in-the-future/)

- * Buying and Selling Art
- * Proving Authenticity
- * Preserving Scarcity
- * Demonstrable Ownership of Virtual Items
- * Value to Micro-Transactions
