Body:

Happy Saturday, friends! It's time for our weekly discussion on Why Stocks Go Up and Down by William Pike & Patrick Gregory. Over the last week if you're following the discussion schedule you will have finished Part 1. These chapters are:

* CHAPTER 4: RATIOS INVESTORS WATCH - Twenty-one commonly watched ratios are discussed, including profitability ratios, financial condition ratios and liquidity ratios. The importance of earnings-per-share is introduced.

* CHAPTER 5: GOING PUBLIC—PRIMARY AND SECONDARY OFFERINGS - What it means to “go public” and why a company does so. The difference between a primary offering, a secondary offering, and an initial public offering is covered.

* CHAPTER 6: EARNINGS DILUTION—JMC GOES PUBLIC - Earnings dilution, a key concept, is presented, and we also look at stock splits and the process of going public.

For next week, be sure to read chapters 7-9 to start out Part 2 - Securities Other than Common Stock: Bonds, Preferred Stock, and Hybrid Securities.

[You can find the discussion for Chapters 1-3 here!](https://www.reddit.com/r/ratioatblessons/comments/p4afa3/book_club_why_stocks_go_up_and_down_chapters_13/?utm_source=share&utm_medium=web2x&context=3)
