Is is a direct quote or is it a summary or what he said?

It's pretty close. Here's the direct quote:

Judge Walker: "Your last statement about just letting the market play out. Here, it seems to be that's what IEX wants to do, and it's you who is going to a federal agency and saying, stop a private entity, IEX, from doing what they want to do. You're the one who's trying to, kind of, regulate your way into a market victory."
