Ryan Cohen bought BBY, Doj never said anything about gme shorts, spoke with a gme high rank employee said he never heard anything about shorts from Ryan(direct contact), all make sense, we have been lured and i sold all my shares today(holding since january 2021), guys he fucked us over, i was in this cult a long time but damn i was 100% sure short squze us happening, with this move from Ryan(bought bby) i now understand everything, i m out guys, hope you realize this fast..

Btw, we can see the price is settling down at 100\$ as more people is leaving gme, even with a lot of DRS(which btw is supposed to make the price much higher from all dd) so guys, aloha!

Oh and one more thing, if all of those were true, ryan could start the short squze on his own long time ago.
