I need to drs my gme shares out of charles ira. Can anyone point to a way to do that? Can i just transfer them using fudality? Is there a dd on this that i cannot find for some reason? I am obviously not worried about the tax hit as I bought these at 250. I was hoping i can just do it through schwab, but when i called, they said it cannot be done. I also think I would only leave about 4 or 5 in there. Any help is appreciated. Thank you in advanced. You guys rock.
