#We can hit 13 million by then!!

If you have a significant fractional share, buy a little bit more to make it a whole share before the split!!

Don't let your broker screw you out of the stock split dividend ****SHARES****. DRS 100%.

Think about trading in your other investments for the BEST investment. The ONLY investment with such a massive turnaround plan and the BIGGEST short squeeze potential.

Get out of Etoro and T212 on your own NOW so they can't force you out during the early stages of MOA*S and make you miss out on your hard-earned tendies.

#Lock the float!

#Changing the world is what's at stake!
