Hey everyone! hope you are doing well. I just wanted to let you guys know that we will probably be seeing a big green candle tomorrow. GME is about to have a crossover on the 1 day MACD. This is not financial advice, I'm retarded and I eat crayons.

[This is the 1 day chart](<https://preview.redd.it/03goexm8zza91.png?width=1149&format=png&auto=webp&s=4bc33085a756d49178578f652009ccabf6194b4e>)

We are in a triple bottom pattern (bullish)

MACD (purple circle) - we are about to flip positive. It is a -1 and looks like it will crossover tomorrow

Stochastics (green) - is going up

A/D is going up as well

Overall - I believe we will see a big green tomorrow and the rest of the week.

I'd like to show you all the other times we had a cross over on the 1 day

As you can tell, 1 day cross over's for GME have been pretty reliable indicator for me to anticipate green candle days.

Overall - I think green days before the split and I'd imagine more green days after that. Rocket is about to leave this atmosphere, I hope everyone is buckled up!

TLDR: GME is about to have a 1 day crossover on the MACD. I speculate big green candles this week.

TARD: We're on the way to Uranus!
