I was gonna kill myself last April until I came across r/superstonk. It gave me hope that one day my life would be worth living. I have held onto that hope since then, but life just keeps getting shittier and shittier. I'm not sure how much longer I can do this. If this doesn't blow up by the end of July, my shares will forever be apart of the infinity pool. I am just a simple lurker, but I love this community and everything it stands for. This past year has been a wild ride. Thank you apes, and thank you GameStop. 🙌■
