Not sure why there isn't a discussion about this on the main page for susperstonk or GME sub. Seems a pretty big deal to me.

Personally I'm not so sure about this whole thing. Has the information been peer reviewed? Have they consulted with GameStop? Who is the director?

But on the other side, the publicity can only be good right?.

I think what really rubs me up wrong is that it is being promoted by AemSee, and I am absolutely convinced they are on the other side.

What you guys think?
