Superstonk mods banned multiple key users:

They have banned sign guy, both pro DRS users that comment on every DRS post, they banned computershared.net guy, and are banning those that protest their bans. Help spread the word to folks that may not have heard. The mods of superstonk have long been sus and they seem to have started another migration.

And one of the banned users, u/Millertime1216 has created another sub for Gamestop investors:

r/DRSyourGME . Don't leave Superstonk but be sure to join the new sub, another migration is underway.
