As mentioned, if liquidity condition is tight we will see DECLINE IN RRP. Since Feb 24 Russian Invade Ukraine ■■ RRP has been falling to the extent end-of-month didn't lift RRP is telling us banking system is facing tougher liquidity condition.

QE officially ended, stock market rout since January wiped out at least \$6 trillion market cap, Oil surged to \$125 per barrel, gold flirting with \$2000 per oz, Russia-ukraine-war drained substantial amount of liquidity off the system and Federal Reserve is expected to raise 25bp for the first time since the beginning of pandemic. Clearly, SWIFT booted Russian Banks start to impact global market liquidity.

All of these does not tell me GME is going to Brrrrrr but it does tell me MarginCall 🐼■ might knock on SHF door sooner than expected. When this happen GME will be the most valuable stocks. ■■■■■■■■■■

Russian assets are going to hit many banks and financial institutions balance sheet because this will weigh on CCAR. Comprehensive Capital Analysis and Review (CCAR) is a United States regulatory framework introduced by the Federal Reserve to assess, regulate, and supervise large banks and financial institutions – collectively referred to in the framework as bank holding companies (BHCs).

They either get rid of these Russian assets from their books via WRITE-OFF like what banks did in 2008 or they raise capital just like what they did in 2008 is yet to be seen. Meanwhile, because those Russian bonds has zero mark-to-market value liquidity condition will only get worst. Recall, how Archegos collapse because of total return swaps and asset swaps. Whether SHF that shorted GME has engaged in asset swaps using Russian bonds as underlying asset or collateral is yet to be seen, no one expected Russia-Ukraine War and it actually created huge vacuum in SHF algorithm model.

IF THIS RRP THEORY HOLDS WE WILL CONTINUE TO SEE RRP FALLING GRADUALLY \$50 BILLION A DAY WILL TAKE 6 WEEKS TO DRAINED EVERYTHING.

IT WILL MAKE 2008 LOOK LIKE A WALK IN CENTRAL PARK AND THIS TIME THOSE MTF THAT
