Just because apes talk about something, dosent make it a distraction. Even if it’s not directly related to GME, no matter what we talk about, we continue to buy, drs, and HODL. That’s our focus, that’s what we DO. What we TALK about is just to pass the time.

There's probably never been a more focused and determined core group of strangers like us. The little people banding together! Yet some think we’re “distracted”, when we talk MeMes or other news, and yet the DRS numbers continue to grow. There’s no distraction, we’re simply waiting.

It’s not what we TALK about that matters, it’s what we DO that matters!

It really is that simple.

Buy, DRS, HODL.

GME is the stock for me!
