Any apes or ape friends with Nvidia or Google shares that were part of the recent stock dividends? What broker did they have and what were the added stocks listed as under said broker? When need sources showing they handle actual share dividends in a different way that way we can narrow this down to two things.

GameStop fucked up.

True crime.

I only have BBBY and GME and have exhausted my list of contacts to try to find the info above. I'd gladly shoot someone a couple bucks into their L2 wallet address if you can provide the items above?

Thanks
