let me add a cent here, GME from date of splividend 28th/July (let's be conservative and not take 22nd)  
totally 108M trade volume,

week 08/05 - 28M

week 08/12 - 41M

This week 08/17 (2 days left ■) - 39 M

Total = 108M

Total Outstanding : 340M

$340 - 108 = 232M$

232M trading volume left to complete a cycle since splividend and one cycle is pretty enough to catch  
major anomalies / Fake shares taking average volume of 4 million per day close to 90 days is good  
enough time or even sooner.

Not a financial advice
