Went to edit my post and somehow deleted it. Smoooooth

(repost)

I wanted to put some thoughts on paper and see if it ends up being close to what I see happening.

I'm a mainly smooth brain incapable of thesis level DD but I have a few wrinkles and seem to have the ability to put some puzzle pieces together (if they have pretty colors and are paint by number).

Thanks to u/MrIntuition for confirming things I've had suspicions about.

Likely some things in here will cause some reactions but I'm a 50 something Ape and didn't grow up in "safe space" environments.

I want to know about all the angles that could have an impact on my decisions, relationships and investments even if the information turns out to be bullshit or uncomfortable.

I don't want to be blindsided just because of my preconceived notions.

"What gets us into trouble is not what we don't know. It's what we know for sure that just ain't so."

■ **Mark Twain (I think)**

I come from a generation that wants to do good but the whole thing was fucking rigged and no one knew it so we 9-5'd our way through and now see steaming piles of dogshit all the fuck around us.

Question: At what point does too many "coincidences" become statistically impossible?

Answer: A long fucking time ago!

Reynolds wrap is on the table in the back of the room for those that like to gather any and all info available.

Help yourself!

Onward...

Let's assume there is a KYOU backed Military Intelligence type group and this is the biggest Sting operation in history.

How it may probably relate to GME

White hats saw the hedge funds and Jeff Bezos bankrupting companies for corporate dominance scam.

GME MOASS breaks Wall Street and corrupt bank CEO's and MSM asshats go to jail (looking at you Kenny, Stevie, Jamie Dimon et al).

Infinite money glitch and Deep State revenue source gone.

Trillions of \$'s repatriated to humanity through Apes.

Mostly millennials and GenXers and aware boomers with good hearts who already have a jaded view of the old guard and a lifetime of facing end bosses for years in gaming... hence our ability to hodl with ■■■.

Apes help people post crash instead of bank bailouts.

Meaningful work for people and security for the infirm.

****GMERICA**** customer delight and employee centered behemoth run by Ryan Cohen et al.

****Amazon FUK!****

****Plot twist:**** Blackrock turns out to be or forced to be good guys!

(Originally funded RC for Chewy to go against Amazon.)

Blackrock gives low interest home loans to people after coming market and housing crash caused by Corrupt Hedge Funders and \$100 Million algorithms and Dark pools and all the other fuckery that's been uncovered by Apes.

****The Devil went down to Georgia (and everywhere else).****

White hats knew the "Cabal" infiltrated the US from within over the course of generations and instead of Hillary it turned out to be 45.

Criminals never thought she would lose so they didn't crime enough.

November 3rd the criminals stopped the count ******(similar to disabling the buy button for GME.)******

MSM, celebrities, Universities etc. launched a massive slander campaign against 45 and pushed the emotional buttons of people with CIA level psychological hot buttons to cover the crimes of the elites and keep us fighting among ourselves.

Think of all the GME related articles and Cokerat pro hedgie MSM bullshit... but nah... MSM is lying about Naked Shorts, yeah... but totally telling the truth about the highest office holder in the land.

Then they ****OVERcrimed**** by the millions and all was caught by the NSA/Space Force because the white hats knew the cheat was on.

<https://x22report.com/?s=spaceforce+caught+them+all>

All the while increasing amounts of censorship and totally trustable "Fact Checkers" "debunking" everything.

... ****results of their independent canvass.**** She says that 34% of the people they interviewed - who were on record as having not voted - said they actually DID vote.

That means that 1 in 3 voters had their votes "lost".

That is a massive number and Arizona should be decertified just on that fact alone.

Not to mention all the other various forms of fraud that occurred.
