With Apple's WWDC coming up on June 6th and strong rumors that there we be announcements related to Apple's VR/AR venture, seems like the perfect opportunity to announce a GameStop partnership on the heels of the GameStop shareholder's meeting tomorrow. Could RC have been waiting for this moment to complete one of the major puzzle pieces in the master plan?! I have no idea, but the thought of it has my tits so jacked they jumped right off my chest and ran down the street!
