## Born to work (2021)

### Plot Summary (1)

Shot over a period of 16 years, «BORN TO WORK» is a portrait of a man who says about himself that he was born into a life of hard labour. Close to 93 years old, John Hoiland still keeps it going, working on his ranch in Sweetgrass, Montana USA. In a contemplative style, the film allows the viewer to sense John's sometimes lonely journey through everyday life. The film is shot entirely in an observational mode of filmmaking. With no interviews or narration.
