This is a fucking embarrassment. This is the biggest waste of time on the entire internet.

I'm ashamed of all of you that have spent more than 5 minutes looking at this like "neat" and failed to move on with your lives.

You're the same people that will obey our overlords that tell us to never leave your house for the sake of climate change and put on your fucking VR glasses for 13 hours a day.

Wake the fuck up. We're in the ACTUAL end game now

GameStop, not pixel place.
