Have you not realized that we give absolutely ZERO shits about your manipulation?

Do you not realize that you and GG are going to prison soon?

Do you realize that everyday we inch closer to your demise, and there's not a single fucking thing you can do about us DRSing shares?

I used to think people were being silly when they said "We can stay retarded longer than you can stay solvent.", but guess what? We shove bananas up each others asses, and we like it! GME hodlers will take you down and shove a giant banana up your sorry ass. The banana you and yours have coming isn't going to be so much fun.

And what's up with you giving \$20 million to an Illinois election? Do you think people are so fucking stupid that we don't realize you're buying influence? FUCK YOU MAYO BOY. You going down, hard.
BOHECA mother fucker!
