I am down \$12,000 you fuckers.

The price is not going to go back up because you guys gave the SHFs enough time to get money to cover and get the government to cover the rest.

It's fucking bullshit.

I trusted all of you and now I am down over \$12,000.

I'm not selling, but what good does that fucking do?

GME needs to get to 200 before I can break even.

Prove that it will do that.

Prove it.

If DRS is working why the fuck is the price going to be below 100 soon?

You fucking assholes. This is my money I worked hard for.

And don't say "Oh you shouldn't risk what you're not willing to lose."

THIS WAS A SURE FIRE THING.

YOU ALL BELIEVE IT.

Literally going to lose \$30,000.....

Jesus fuck
