If you or your staff are reading this, Redditors from various Ape subs have clearly documented the recent in-your-face daylight fraudulent activities perpetrated by the DTCC/NSCC leadership (Michael Bodson & company) which is supposedly overseen & governed by the SEC (Security Exchange Commission lead by Gary Gensler & company).

This has resulted in the outright theft of stock dividends that were to be distributed to thousands of retail investors who are located in multiple countries around the world. The reason why this fraud occurred was to protect the interests of Short Hedge Fund companies and those financial institutions who support their criminal activities.

Retail investors, who did nothing but Buy and Hold on to their investments like any investor does for companies of value, have been robbed of their legally earned dividend payments (in stock).

This fraudulent action by the DTCC/NSCC was taken in direct opposition to the wishes and legal direction (as outlined by the filing of the stock dividend distribution) by the executive leadership of GameStop.

The fraudulent activities performed by the DTCC/NSCC during this past week has now been clearly documented for anyone to read. Activities of this fraud have been sent to the DoJ, the FBI and the SEC's equivalent in many other countries.

Like us, they are waiting for answers from the SEC and the DTCC/NSCC as to why they created this current state of fraud that has affected financial markets world wide.

Kind regards,
