Around a month ago I sent my gme shares off to the infinity pool to go play with their buddies. I haven't received my letter yet so haven't created/logged into my ComputerShare account yet.

My question is at what point are shares direct registered? Is it when they get sent away from my broker (IBKR)? Is it when I get my letter and can log on to ComputerShare? Or is it at some other point in their journey?

I'm curious now because I'm wondering if my darling shares will be included in the DRS numbers that we're hopefully going to get in the earnings tomorrow.

Thanks in advance and good luck sleeping tonight apes ■
