Please note that some of the instruments on the eToro platform are traded as real assets, while others use CFDs.

10:13 PM

Real asset and underlying asset is the same thing

If the position you open is a CFD there is a CFD symbol next to it

If there is no symbol then it is a real asset

10:14 PM

Okay I see, so the open position I have with GameStop Corp. is the real asset, and I will be due to receive any and all owed dividends by eToro when GameStop issue them?

You're a huge help [redacted] by the way, thank you!

That is correct

That's awesome, thank you so much for clearing that up for me! I appreciate your help
