I have XX GME shares in european broker Degiro, and from what I've read, they are relatively reliable.

As we know no broker can be trusted 100%, but am just wondering if they will completely fuck me over if I don't DRS in time.

I know that this question cant really be answer since the truth is that no one knows, however I am wondering if any wrinkle brains can help calm down my smooth brain and allow me to sleep a little better at night.

Thanks in advance
