## # 0. TLDR

I have been compiling, organizing, and archiving relevant GME content on [Github](https://github.com/verymeticulous/wikAPedia#readme) since early 2021. Below is a list of some of the most important due diligence created by apes with many more wrinkles than I.

**\*\*For new and curious apes that stumble upon wikAPedia, I encourage you to read the content from the source site. This resource would not have been able to be created if it weren't for the many intelligent apes who have worked tirelessly to create their posts and deserve your upvote!\*\***

## # 1. Overview

I realize that the table below does not entail all serious or important DD. If there's content that you think should be added, please let me know.
