Hey guys, hope yall are having a good weekend. I know I am.

\*Just thought I should share this overlay from the '08 crash to where we are now.\*

[ '08 overlay from August 8 to March 5, '09.](<https://preview.redd.it/o85if8mwx2n91.jpg?width=2388&format=pjpg&auto;=webp&s;=66924ec65c0e1821a8870d7b328645186bd1e9af>)

\*\*Here are a few things this aligns with that are happening soon or are happening as of now.\*\*

1. This graph aligns perfectly in time with the FTX US Tokenized Stock Market being released [Oct 1](<https://help.ftx.us/hc/en-us/articles/7706072475031-Fee-Schedule>).
2. Coincidentally most crashes happen in October, which is the end of Q3 in the normal year.
3. Stole this from u/Criand in his 'Black Monday' dd, most crashes seems to start a little before or after quarter end, and again Oct 1 is when Q3 ends.
4. There's also 1 tweet left from Ryan Conen that we are waiting for in September to finish off the 741, 7 tweets in July, 4 in August, 1 in September. Safe to say this could be the bomb we've been waiting for, as for what the bomb may consist of is up to you to speculate but imho he could announce... we're moving away from the \*\*DTCC\*\* into a decentralized exchange (Loopring) or a centralized exchange (FTX US) with \*\*TOKENIZED STOCK.\*\* He could also announce a 2-for1 stock dividend in the form of a split which will be given in the FTX US exchange an NFT DIVI. They could also back the tokenized stock in FTX by the amount of shares that SHOULD be in circulation which is ~305m.
5. I saw a post on SS explaining how someone in the Government of Ireland SUPPOSEDLY leaked the Government of Ireland was preparing for a total collapse of the stock market all around the world.
6. Many of you have seen this already, but the Vatican is also demanding that all of their assets be deposited to Vatican Bank by Oct 1. Here's the [link](<https://en.protothema.gr/pope-decides-to-bring-all-assets-back-to-the-vatican/>).
7. Aswell as the ETH Merge completing Sept 15.

\*For those that are still unsure if tokenized stock would force shorts to close, I'm here to tell you it will (if they decided to go this route). Matter or fact all of these options would force shorts to close. ■GME\*

NFA though, just wake me up when September ends BABAYYYYYY.
