

Title: Ladies and gentlemen, this is either the dumbest post I've ever seen which wasn't even remotely funny, or they were being serious in an attempt to get people to follow suit? If the latter is the case, they must really really really need our shares!

I discovered an easy, fool proof way to average down on stocks! I've recently found a loophole on my trading app.

Technical Analysis

I had 10 shares of GME at 280 from last year. When the price went down to 104 I quickly sold my 10 shares and repurchased them lowering my average to 104. I'm now green on this stock since the price went up to 108.

I am now have a lower cost basis than 99% users on my the app.
