Well FUCK!!! 2 steps forward, 3 steps back.

US Gov on their way to passing a bill mostly targeted for healthcare and climate change BUT (there's always a fucking "BUT") they had to remove the provision of the **carried interest loophole** that allows wealthy hedge fund managers and private equity executives to pay lower tax rates than entry-level employees. Just fucking NUTS!!

You can thank Senator Kyrsten Sinema (Dem) as the obvious paid-for bitch who enabled this continued robbery on the US economy for privileged individuals. It would seem that Kenny Boi still has a lot of ~~sway~~ money to ensure his riches are not affected that is... until we liquidate the fucker.

****No matter what the Gov does to protect SHFs, there is no stopping the GME freight train. We're coming for you Kenny Boi... for you and all your complicit friends.****
