I've been trying to fund my Gamestop wallet to activate it via the wallet's built-in Wyre/Ramp options but my payment is declined. I made an account on Wyre, thinking that directly connecting my account would work, but it "succeeds" but then says "No payment account available".

Is anyone willing/able to transfer just enough (0.000425 ETH (\$0.76)) to activate the wallet and I will pay you back via FnF in Paypal? We can exchange PP info via DMs.
