I just made my second GameStop purchase directly from CS. It takes 3 days from order to when purchase is made. This was not so favorable for me since price went from about 100 on Monday to 129 on Thursday when it got status Awaiting settlement.

Is this the only way to buy stocks through CS? Or have I missed something?

I am soon to be registered owner of nearly 50 pieces of our favorite stonk, but could have had 10 more if I would have gotten the price from the day I made the order.

I know the price is dirt cheap, but more is more.
