Like the title says, I used their chat on their website via my phone's browser. It took about 3 minutes and the longest part was trying to figure out how to get an agent from the virtual assistant. Here is everything I wrote (4 lines/responses).

Hello, I would like to register 20 shares of GME with their transfer agent, Computershare.

Yes, thank you.

Can you provide the confirmation number for this transaction please?

Thank you, have a good day.

That is literally everything I wrote/said. I had been nervous before but the chat helped me overcome it. Your turn!
