Hello all,

Just wanted to get some discussion on this GameStop documentary.

At first, most were calling it FUD and such. Many apes said it was propaganda against the squeeze and said it was some sort of psychological FUD.

Now that Ryan Cohen has endorsed it, how is everyone feeling?

On top of this, he literally posted the kettle corn in his tweet. Like, even brought up movies. Many GME elitist are kinda brushing over this, especially when they read into everything. Literally look at the post on stonk and there's literally no kettle corn references.

Just strange is all. Discussion?
