

Title: Banned for posting these connections in SS, GMEjungle, DDintoGME and GME_Capitalists. Testing the temp in here. Is it hotter than 17 or is it cold? GME is part of a MUCH bigger plan...

First off, I apologize. I'm posting this from a phone. Also mods, feel free to change flair if this isn't a good fit.

Are you all aware of just how big GME is and who is involved? Even though it seems like the SHF keep kicking the can, we can see progress being made. We see GME and LRC being part of a restructuring that will clean up the whole corrupt system. But how is this possible? It's because of the connections they have to much bigger entities...entities who are shifting power back to the people.

FWIW, as long as the mods don't delete this I will continue to add my graphics to the bottom of the post as I find more connections...so check back often.

You may have remembered me from awhile back. I made this post to show connections between RC, DFV, GME and KYOU. I encourage you to check it out before moving on...

My theory may be wrong but the connections can't be denied.

Since then I made several other posts in here showing graphics like this...posts such as:

https://www.reddit.com/r/Autisticats/comments/ozlv5x/all_on_the_rothschilds_thanks_for_the_crumbs_mr/?utm_medium=android_app&utm_source=share

https://www.reddit.com/r/gme_capitalists/comments/oo20qs/another_angle_to_rcs_latest_tweet_interesting/?utm_medium=android_app&utm_source=share

As you can see my posts always get downvoted to all hell. I know I have bots and shills following me but it's not going to deter me from showing you all the connections and graphics I have made. Make of them but you will.

As you can see from the above, tweets from RC, DFV and Gamestop among others, appear to tie into KYOU drops.

I have also noticed that price action and closing data ties into the drops as well. Keep in mind that KYOU posted almost 5000 different drops covering a wide variety of different subjects. 5000! Thus when multiple connections are made in regards to wording and content, it should cause you to raise an eyebrow.

I'm a firm believer that there is a plan taking place to systematically destroy the Cabal and Gamestop is a part of that. I'm also a firm believer that the good guys are in complete control.... and that control includes certain parts of the market...certain parts being SPY (Big tech ETF) and GME.

So here are a few more graphics to munch on...

As you can see, Saudi Arabia and Rothschilds (aka [y] aka **) are recurring themes in these graphics. For some reason the drops that are pulled into the GME/SPY comms many times contain these two subjects. I can understand why with the Rothschilds because they are the heads of the Central Bank and this squeeze is going to cost them butloads of cash.

But why Saudi Arabia (SA)? What is the connection there?

I'm hoping some other people in this group can help dig and find what our insider is trying to tell us...

If you made it through this far, you are amazing. Thanks for sticking with me.

Remember, NOTHING CAN STOP WHAT IS COMING.

Update (from my Telegram):

Did you see the Rocket that was launched today (1-28-2022) in Iraq close to the US Airbase? Would you believe me if I said two different numbers in GME/SPY closing data pointed to drops mentioning rockets? Would you also believe today is the anniversary of when GME rocketed up to 483 a share before corrupt brokers manipulated the market and turned off the buy button? Ask any GME shareholder and they will describe their shares as being tickets on the ROCKET ship to the moon.

Also the closing data also brought in the exact same phrase in 3 different drops "Snow White, Godfather III". As usual "SA" was also mentioned along with "Rothschilds" which I left out of the graphic but was in drop 248.

Multiple other connections and relevant content among the drops brought in by the closing data. WAY too many connections to list in one graphic.

The war between the cabal and the White Hats is also going on in the financial sector. And this fight has the potential to impact the entire world by affecting the global markets and banking system.

Update 1-31-2022 closing data:

Gamestop and SPY closing numbers once again bringing in all kinds of drops with similar subject matter. The themes for today were HRC and her emails and Barack Obama. Saudi Arabia also mentioned in drop 80.

Q is definitely trying to tell us something by stringing together so many drops with the same subject and even the exact same wording in a few...POOF!
