**Keep AMC and BB for next week.
You're gonna fuck it up for
everyone. Just fucking buy more
GME austerists**

Discussion

You retards we don't have the fucking liquidity to "invest in" 3 stocks at once.

1. If you "invest in" AMC and BB then you can't "short squeeze" gme. Fucking simple maths.
2. We are on the verge of something special and the newcunts are gonna fuck this up for everyone.
3. GME hitting 500\$ is actually realistic.
4. The shorts mature on Friday.
5. Next week 🦅🦅🦅 amc and bb. Not this freakin week.

Tldr; don't fucking "Invest in" amc and bb this week. Keep it for next week.
