What is [Solgrams](https://solgrams.com/)?

Solgrams is the First Social media for NFTs

Why choose to join Solgrams?

It is designed in a way that **everybody** can potentially profit from it, whether you are a big whale or a small fish trying to get some help to get its meal.

What do I mean by that?

If you are a whale and like the project, you get a **sustainable flow** of NFT collections that will not rug pull you.

Why is that?

It is in our best interest to have you as a client, we will make more from you in the long term than we will by rugpulling, **our primary focus isn't to sell out our first collection**, our focus is building trust and growing our social media, which will **lead to a sell out of all collections, not just the first one.**

I can definitely understand projects that just want a quick buck, but that's not our view.

You also **won't need to make additional research because you only have to do it once** (We will be releasing multiple NFT collections and doing our research to find the good projects and add them to our collaborations list)

If you are a small fish, You get the option to be active in Solgrams and you get **rewarded**, every role has its specific use and some awards will entitle you to enter a giveaway for free NFT, others will give you a mint **discount up to 50% by doing simple tasks.**

We are a team of 3 people so far, we all know each other in real life and can show our faces, place we live and all the Doxed details.

What other incentives to hold our NFT collections ?

Every NFT collection we will publish will be **Stakable**, by staking it you will receive **SolG**.

SolG is a beautifully designed token and it cannot exist alone without **wSolG** and **dSolG**, Please refer to [our course](https://www.solgrams.com/lessons/introduction-to-solg-dsolg-and-wsolg/) for more details about each.

Our revenue isn't solely dependent on selling the NFT collections, that gives us more **flexibility**

Our art is a WIP, I Guarantee that the whole community is going to love it.
