Frustrating to say the least this was removed in 7 mins on SuperStonk....

The connections to BBBY and GME is not just through RC or Basket of Meme stocks. They are directly linked together through SWAPS and I believe BBBY has been shorted HEAVILY (with a put blankets or ETF fuckery or any which of the many tools they can use to do this as a MM) starting in March of this year to help anchor down GME in the SWAP with popcorn and others.

Lots of bullshit and FUD regarding BBBY this AM. I am nearly certain I know why - and it has everything to do with their SWAPS exposure and derivative balancing for their margin requirements. Its no secret they have a minor (by minor I mean they need to try and find roughly 10% of the company to buy in FTD's by July 17th) exposure risk this next 2 weeks for GME FTD's (C+35 schedule?).

If we wanna get complex with it, there are all sorts of SWAPS anchoring this bitch down (shout out to the entropy and variance SWAPS nerds out there)...but I believe there are some VERY vulnerable anchors in their little fuckery based on the relative price movements of the meme stocks over the last year (since they went long for the popcorn swap).

They are scared of people knowing how vulnerable their bullshit in BBBY is currently and how it is being used as a negative weight against GME. They cannot afford the price of BBBY to dramatically increase because it will most likely upset their derivative balancing bullshit in the SWAP basket with GME.

If you disagree - I would love to hear your opinion. But first, you will need to understand the mechanics of SWAPS and derivatives. If you dont, then dont share your opinion about the validity of whether or not BBBY is a "dIsTrAcTiOn tO DrS" - no its not. Sit back and level up that market knowledge.

To understand why BBBY would be important here you need to understand the circular nature of derivative margin exposure created by all the ETF/Settlement fuckery and FTD washing they do.

[Yahoo Finance is fucking around again](https://finance.yahoo.com/quote/BBBY/holders?p=BBBY)....this is exactly what happened with GME before the Jan 2021 Squeeze.

[106.44% for Institutions. What about my shares I have?](https://preview.redd.it/hacnptdimr991.png?width=1810&format;=png&auto;=webp&s;=28355d2227344f08687b170a45f37983ddd752f6)

GME has a massive 3 week (and counting) rolling FTD exposure that begins to get more intense starting today. If there was an achilles heal during this period of time for the fuck-nuts bastardizing our markets, it would probably be BBBY at this time.

[Thats a lot of fucking failures....and thats coming from a fatty who eats paint chips](https://preview.redd.it/n9o32bkhs991.png?width=2358&format;=png&auto;=webp&s;=bbcbdb18161b0132c8990a44b623433af6871d41e)

There are plenty of reason's why BBBY would be that achilles heal and would be relevant to conversation in topics concerning the stock value of GME - they are quite literally tied together.

I will let you degens do the research on the fundamentals of the company as I dont know enough to share. But what I do know, is how Ryan Cohen is invested in GME and BBBY, and I have a hunch I know how

they are being SWAP'ed against each other....SPECULATION...NOT FINANCIAL ADVICE.

But in general:-Cohen has 10% of the company and is gutting the consultant baddies on the board.

\-Cohen holds so WAYYYYY out of the money calls. A true degan. Or he's got something up his sleeve.

[wat doin?](<https://preview.redd.it/d23iia2shs991.png?width=1920&format;=png&auto;=webp&s;=1ef4c7cc989d0d509ad3ae564dfb2cbbcf9ae613>)

\-In [his letter to the BBBY board](<https://www.barrons.com/articles/ryan-cohen-bed-bath-gamestop-51646676936>), he encouraged a Buy Buy Baby sale would also help pay off BBBY's debt, thus making it less likely for any sort of Bankruptcy, thus shaking any weak gay bears.

\-BuyBuyBaby would be a lovely addition for an NFT marketplace to help parents solve the current issue of [non-compliant and dangerous children products being sold on major ecommerce market places.](<https://www.youtube.com/watch?v=YNPIAR7GCrg&t;=21s>) Where they KNOW the product has come from and passed the proper regulations for the products that are for their children.

BBBY is the achilles heal during this time and RC called it back in Aug 2021...

[He is looking for the cheapest and most well positioned companies involved in the SWAP to hostile take over and turn around to squeeze the shorts outta GME and use those businesses in conjunction with Gmerica and NFT marketplace.](<https://preview.redd.it/u7ot6d9nmr991.png?width=1192&format;=png&auto;=webp&s;=2415d230d3b930b7d5f937c01492804c2fc06566>)

Let's be multifaceted people here. We can walk and chew gum at the same time. BBBY is an important piece to this chess match between RC and Wall St. He wouldnt have spent millions purchasing 10% of the company if it wasnt.

If any of your BBBY fans like what you see or have some input, please do let me know what you think needs to be included.

Thanks

****Edit #1:****

****For those that say where is the proof or DD? Its in the SWAPS data. The data they fucking HID from everyone until next year or whatever.****

****Secondly, I tried to post in Dub Es Be and BBBY is banned and the post was removed.****
