Body:

<https://www.projectpai.com/>

"This paper presents a utility network coin for using PAI, the world's first Personal AI (PAI), a 3D intelligent avatar designed to look like you, speak like you, and behave like you in the digital space."

https://projectpai.com/assets/files/whitepaper/projectpai_whitepaper.pdf

Seemed interesting with the talk of how advanced AI has become like OpenAI's gpt-3. <https://openai.com>
Especially when that AI mimics human writing so well and ProjectPAI is trying to make an AI that acts on our behalf in the digital space.

I'm sure they don't mind working with an ocean view too: <https://ibb.co/5R7Cq6h>

When we look at the company that creates PAI, ObEN <https://oben.me>, we see that they're creating avatars that I assume will be used for PAI. "Create your own", they say. Yeah, no thanks, I'mma hold onto my identity. Anyway, ObEN appears to be founded by Nikhil Jain and Adam Zheng with a headquarters in Los Angeles. Adam Zheng is a board member of New Silk Road Model Management https://www.chinese-tools.com/about/New_Silk_Road. "A modeling agency founded in China, in 1992. Its contest - the New Silk Road Model Look - is considered as one of China's most famous modeling contest." So they must be pretty big to have "China's most famous modeling contest." That seems interesting because the modeling agency has a reputation for human trafficking and being a playground for some of the big boys.

Adam Zheng is also connected to IdeaLab <https://www.idealab.com> IdeaLab was founded by Bill Gross. Bill Gross, an agenda contributor for World Economic Forum? <https://www.weforum.org/agenda/authors/bill-gross/>. The same World Economic forum pushing The Great Reset? <https://www.weforum.org/great-reset>

Great Reset, by Klaus Schwab and Thierry Malleret, in full:

https://straight2point.info/wp-content/uploads/2020/08/COVID-19_-The-Great-Reset-Klaus-Schwab.pdf

"About the authors:

Professor Klaus Schwab (1938, Ravensburg, Germany) is the Founder and Executive Chairman of the World Economic Forum. In 1971, he published Modern Enterprise Management in Mechanical Engineering. He argues in that book that a company must serve not only shareholders but all stakeholders to achieve long-term growth and prosperity. To promote the stakeholder concept, he founded the World Economic Forum the same year."

Stakeholders sounds a lot like "landowner" back in the day. The elite, if you will.

"Thierry Malleret (1961, Paris, France) is the Managing Partner of the Monthly Barometer, a succinct predictive analysis provided to private investors, global CEOs and opinion- and decision-makers. His professional experience includes founding the Global Risk Network at the World Economic Forum and heading its Programme team."

As they say, "everything is connected."

Thoughts?
