Education should be FREE. I am so sick of the world THEY built. We're supposed to be helping each other to be better. The whole system is stupid.

I'm lying here watching Ru Paul's Drag Race and I'm like what in the fuck are we doing? As a "society", we shouldn't give a shit what you do, who cares, they do, fuck you, hate you, it's all so stupid. They MAKE us stupid on purpose. Get educated.

But we can't. THEY have rigged the education system to be EXPENSIVE, it's on purpose. We are too stupid to see the whole system is riXYed for the .01. THEY are riXYing the markets, it's so fucking obvious.

Disclaimer: I'm very stoned. It brings out my emotions but what but in the fuck. Education should be free. We're too stupid to see that climate change is happening, right? That's also obvious because IT'S ALWAYS SO FUCKING hot right? But no. We're too stupid. I can tell it's hot, and half the country is too stupid to see it.

And when I say stupid I really mean they haven't seen through beyond what is keeping themselves to get educated. In general.

I'YOLO'ed into GameStop that January, \$289 ape. The community that the ticker #GME has brought from around the world for the last year and a half plus is extraordinary. We're so MUCH FUCKING smarter now, it's education. We are so dumb.

The DD is never done, AND the DD has proved 1000's of crimes, it's so fucking obvious. WE own this, it is inevitable. Or THEY take it away. Like they always have, through inflation? Some other disease?

Is Ryan Cohen the man? He's doing what's best for the long term view for his company. WE as the #GME community have them trapped. It's so obvious. First time in history? #GMEANGRY
