Hello apes,

So I posted [this.](https://www.reddit.com/r/DDintoGME/comments/qdxldq/the_root_of_all_evil/)

And then I found something very interesting with my findings.

I think I might know what Cohen and Co. are saying with their tweets.

[BEWARE THE IDES OF MARCH](https://www.reddit.com/r/DDintoGME/comments/qdx9ka/beware_the_ides_of_march/) wasn't just a bit.

Let me tie the loose ends together with the bluebird.

Can't find my bluebird, I keep a rambin ababya...

(Disclaimer: This is EXTREMELY tin foil. These conclusions are just my interpretation of things. Agree, Disagree, do whatever you want with this information I'm spouting. I'm not your Daddy, Cohen is.

First, let's look at Larry Cheng, one of the board members.

First I want to turn your [attention](<https://twitter.com/larryvc/status/1367165404481794062>) to these tweets first.

Then there's this [one](<https://twitter.com/larryvc/status/1405978930306334724>)

Then this [Thread.](<https://twitter.com/larryvc/status/1410628508905320451>)

This [one](<https://twitter.com/larryvc/status/1417262841141280769>)was my favorite, kind of explains my thinking when I posted DD without any fancy graphs or anything

Here's [him explaining the thinking](<https://twitter.com/larryvc/status/1422601754131111937>) behind his board seat.

Here's the [kind people](<https://twitter.com/larryvc/status/1427992022896447493>) he wants to hire.

[Mentality](<https://twitter.com/larryvc/status/1429855134826344448>) behind the people he wants to hire.

Talks about the [journey of investing.](<https://twitter.com/larryvc/status/1433171676427075585>)

Reason why [he chose Gamestop.](<https://twitter.com/larryvc/status/1440723408061300741>)

And what [he](<https://twitter.com/larryvc/status/1441038860574658561>) sees the company becoming.

Why [GameStop fits no mold.](<https://twitter.com/larryvc/status/1441484788225900546>)

Mmmm is [he](https://twitter.com/larryvc/status/1442666074131079168) talking about Standard of Deferred payment?

[Silence is the language of the wise](https://twitter.com/larryvc/status/1443698966579789826)

[Risk](https://twitter.com/larryvc/status/1444045717367054343) can be the antidote to risk.

[Maybe why things](https://twitter.com/larryvc/status/1450287225724354573)are [taking so long](https://twitter.com/larryvc/status/1450287226827513861) on [the Marketplace?](https://twitter.com/larryvc/status/1450287227871895562)

[And maybe why you elitist data and TA types should shut up.](https://twitter.com/larryvc/status/1450287229117648898)

I'm glad you're doing what you're doing, but I think this is a concise way of saying that this analysis of what they're saying is just as valid as Data and Charts.

I don't need charts and fancy graphics to read what the board members are saying.

If you really think that Wall Street is as corrupt as they say, why the hell would you use their tools to find dates?

No thanks. I'll try and decipher what the people ****AT GAMESTOP**** are trying to say.

You can draw lines with crayons. I prefer to eat them.

[Talking about how fiat currency is ripe for inflation](https://twitter.com/larryvc/status/1450851177046872065).

[I then there's this one. Oh this one showcases my last DD beautifully.](https://twitter.com/larryvc/status/1451214664923234308)

Starting to see a pattern. I see chess being played beautifully and right in front of all of our faces.

Let's go to Loopring's tweets.

[I'll start here.](https://twitter.com/loopringorg/status/1437604982900015104)

Nough said. All parties involved are in this game of Chess and they ****ALL**** have been telling you so and what is going to happen ****THIS WHOLE TIME.****

What about Finestone?

Same central message.

Finestone [retweeted this](<https://twitter.com/jchervinsky/status/1413536050987900931>)

[Oh look at that](<https://twitter.com/finestonematt/status/1413615681489227779>). Things in the C-Word/NFT realm have gotten pushed back before?

And how [they're going](https://twitter.com/likebeckett/status/1452027362229436416) to [do it](https://twitter.com/benjaminion_xyz/status/1446516207159582743).

What about Holberg?

I think [this tweet sums this up perfectly.](https://twitter.com/eviljordan/status/1451585273859477506)

Notice a pattern in the messaging?

Okay, now with all of that out of the way let's go to GameStop twitter.

Then we'll get to Cohen.

GMERICA!

<https://preview.redd.it/d8vwetj711w71.png?width=913&format;=png&auto;=webp&s;=9e32e32ad8d21d8290177aef5d67b49efc3cdbbe>

What the hell is Gmerica?

Is that the name of the Marketplace.

Look, that would be a great name. I would agree entirely with it.

I don't know if GameStop 100% owns the trademark.

They probably do. I wouldn't be shocked if they did.

Cohen announcing GMERICA whenever he will would bring the house down.

I don't think this tweet is about this and ultimately this is the one tweet that tipped me off to this whole thing.

GMERICA?

What happened in the United States on the Day this was posted?

****FEDERALIST**** Alexander Hamilton dueled ****ANTI-FEDERALIST**** Aaron ****BURRRRR****.

Then I thought.

Wait...

IS THERE A FORMULA TO THESE TWEETS??

[1v1 me bro.](https://twitter.com/GameStop/status/1448357191392665609)

[Squid game tweet](https://twitter.com/GameStop/status/1448000994118340614)

[When did Columbus “discover the New World”?](https://www.loc.gov/item/today-in-history/october-12/#:~:text=to%20this%20page-,Columbus%20Day,of%20European%20exploration%20and%20expansion.&text;=The%20first%20recorded%20celebration%20of,by%20the%20Society%20of%20St.)

I believe so. There are just too many coincidences across all of these tweets for there not to be anything.

Y'all can keep drawing with your crayons and keep pretending like Technical analysis and Data matter.

Because it sure as shit doesn't matter to Cohen and Co.

The only date that matters is the one they're trying to tell us.

Sorry.

Am I overestimating my own findings?

Maybe, Time is the judge of us all.

This just makes too much sense to me to not be said.

Note: I think there are a few outliers as I discussed before. I think Cohen is totally not making these without some effort to tie it back to their main message with the NFT Marketplace.

Let's start at the beginning and work our way to the present.

The first one is [this one](https://twitter.com/ryancohen/status/1336775515101949963).

Not sure where this GameStop was opened.

The timestamp is [very interesting](https://www.law.cornell.edu/uscode/text/28/1251)though

So is the day that [he tweeted this](https://en.wikipedia.org/wiki/December_9)

>!(Hint: 1935, 1968)!<

Numero Deux:

The [Benjamin Franklin Tweet](https://twitter.com/ryancohen/status/1344687817998401537).

[Huh now isn't that funny?](https://www.law.cornell.edu/uscode/text/26/852#:~:text=%C2%A7%20852-,26%20U.S.%20Code%20%C2%A7%20852%20%2D%20Taxation%20of,investment%20companies%20and%20their%20shareholders&text;=as%20of%20the%20close%20of,did%20not%20apply%20to%20it.)

[When did he say this?](https://nationalitc.com/an-ounce-of-prevention-is-worth-a-pound-of-cure.cfm)

[Apart of what organization?](https://en.wikipedia.org/wiki/Union_Fire_Company)

I don't know if there's any specific date for when he said that.

Benjamin Franklin did write [some news and his own beliefs however.](https://en.wikipedia.org/wiki/Poor_Richard%27s_Almanack)

[December 31st?](https://en.wikipedia.org/wiki/December_31)

>!(Hint: 1775, 1862, 1983, 1991)!<

Next Tweet,

[The BlockBuster Tweet.](<https://twitter.com/ryancohen/status/1346943412663177218>)

This was one of the main thesis for the Cellar Boxing DD that is most definitely a factor in the downfall of Blockbuster.

BUT

What does [dat timestamp](<https://www.law.cornell.edu/uscode/text/18/215>) say?

[Date?](https://en.wikipedia.org/wiki/January_6)

>!(Hint: 1941, 1950, 2021)!<

(look that 2021 tie in is tenuous at best and I'm not on either side of the political spectrum, I'm just using it to prove a point)

Now this,

[Dumb and Dumber Peanut Tweet.](<https://twitter.com/ryancohen/status/1350877969816956934>)

[Timestamp?](<https://www.law.cornell.edu/uscode/text/10/1049>)

Anons? Anyone?

Mmmm what does ol [Jimmy Boy](https://en.wikipedia.org/wiki/Jim_Carrey#Political_and_spiritual_views) think about visualization?

>!(Hint: Section Political and Spiritual views)!<

[Look at that delicious date.](https://en.wikipedia.org/wiki/January_17)

>!(Hint: 1917, 1945, 1946, 1961, 1991, 1994, 1995, 1998, 2007)!<

Aww yes, [the ice cream tweet.](<https://twitter.com/ryancohen/status/1364650709669601289>)

Ohhh this is getting good. [Kind of like Ice Cream.](<https://www.law.cornell.edu/uscode/text/15/1057>)

I think he's discussing how McDonald's made the LEAP to a CHAIN fast food restaurant.

[Wut happened on this day?](https://en.wikipedia.org/wiki/February_24)

>!(Hint: 1803, 1868, 1917, 1920, 1942, 1967, 2008)!<

Noticing a theme?

[The Pets.com Tweet](<https://twitter.com/ryancohen/status/1367555194196787206>)

[Tim Sthamp?](<https://www.law.cornell.edu/uscode/text/15/1119>)

Okay this date is the more tasty one for me due to the context that this tweet followed. The run up in February was when everyone thought it was the End Game.

Cohen knew when he wanted to launch this rocket and couldn't tell anyone.

So he tweeted. I think this is where this really starts to get interesting.

Pets.com is the most infamous example of
[speculation](https://www.investopedia.com/ask/answers/08/dotcom-pets-dot-com.asp).

Just what [exactly happened on March 4th?](https://en.wikipedia.org/wiki/March_4)

>!(Hint: 1152, 1461, 1493, 1519, 1628, 1681, 1791, 1797, 1801, 1804, 1837, 1913, 1933, 1957, 1976)!<

How about another.

[Jeff Daniels taking a crap](https://twitter.com/ryancohen/status/1370136976666595331)

[Jeff Daniels](https://en.wikipedia.org/wiki/Jeff_Daniels) has played in a ton of movies. The one that stuck out the most to me is Steve Jobs.

My smooth brain is sensing a deep pattern here Cohen. He also was in the Martian as well.

>!(Hint: Bottom of the Top paragraph)!<

[Time StAmP.](https://www.law.cornell.edu/uscode/text/18/218)

DaTe?

>!(Hint : 1861, 1941, 1981, 1985, 1990, 2011, 2020, 2021)!<

KEEP GOING BESTIE I NEED TO KNOW MOARRRR.

[Superman lives forever.](https://twitter.com/ryancohen/status/1372270634374467587)

Hodl Shares Forever?

When is Superman's birthday anyway?

Can you be my [date](https://en.wikipedia.org/wiki/March_17), Cohen?

>!(Hint: 1776, 1805, 1861, 1921, 1948, 1958, 1960, 2003)!<

Next Tweet.

[Ted hitting the bong.](https://twitter.com/ryancohen/status/1375159657166209031)

Okay no text, but the [timestamp](https://www.law.cornell.edu/uscode/text/18/1156) refers ****PRECISELY**** to what is in the GIF.

What happened on [March 25th?](https://en.wikipedia.org/wiki/March_25)

>!(Hint: 708, 1584, 1655, 1802, 1821, 1911, 1947, 1948, 1949, 1957, 1965, 1979, 1995)!<

[Sime Tamp?](https://www.law.cornell.edu/uscode/text/26/1036)

Obviously, this is when he was elected chairman of the board. I don't think there's a deeper meaning here.

Unless... He's holding whiskey.

[?etaD](https://en.wikipedia.org/wiki/April_8)

[Next tweet.](https://twitter.com/ryancohen/status/1381829698263654401)

Now where is this GameStop?

Tesla is down the street.....

OMG is Cohen using them as their [technology supplier?](https://electrek.co/2021/08/20/tesla-dojo-superc-omputer-worlds-new-most-powerful-ai-training-machine/)

Elon hates shorts [after all...](https://twitter.com/elonmusk/status/1354174279894642703)

And Cohen sure as shit isn't going to use AWS...

****Also****

Hehe, This GameStop is next to a Tuesday Morning.

The Ides of March is on a Tuesday next year.

Oh yeah so is March 1st too.

just sayin

Next Tweet.

[The Brofist Tweet.](https://twitter.com/ryancohen/status/1383204653630914563)

Following this stream of logic of American and World History. There's a [fist statue in Detroit](https://en.wikipedia.org/wiki/Monument_to_Joe_Louis) that honors the legendary Joe Louis. [Joe Louis](https://en.wikipedia.org/wiki/Joe_Louis) was the consummate underdog in his boxing career. He was also the consummate badass.

Makes more sense to me. You split Chopsticks, but you HOLD them TOGETHER.

Computer Chair? Yep, pretty obvious.

Listen, the cone poo chair was totally right too. I just think Cohen wasn't communicating that in the tweets as most did.

Also, the Typographer was first released on this day. Which was the precursor to the typewriter. Which was the precursor to the computer.

AND WHEN DO I THINK HE GOING TO RELEASE THE NEXT ONE AND GO RADIO SILENT YOU MIGHT ASK.

Novemburrrr 15.

Why Bestie, that's a REALLY specific date. The lines I drew on the chart don't fit your time table, therefore you must be wrong.

Yeah, Unless Cohen only tweeted 49 times.

Yeah, so what?

AMERICA HAS FIFTY STATES.

Okay?

RYAN COHEN IS SAYING IN HIS TWEETS HE WANTS DECENTRALIZED FINANCE.

Why Novemburrrr 15 then?

Well, I wrote a post on it if you're interested...

I'll state it here to prove a point.

The Articles of Confederation was FIRST created on what day?

Yeah, Novemburrrr 15.

>!BUT it was RATIFIED on March 1.!<

DUDE STOP THIS NEEDS TO END YOU AREN'T DOING REAL DUE DILIGENCE, THIS IS A CONSPIRACY THEORY.

LOL.

ANYWAY

TLDR:

Cohen, Cheng, Loopring, and Members of the GameStop homogeny were trying to tell the apes to want **DECENTRALIZATION**. They've been in **LOCK STEP** on their messaging.

The formula for Cohen tweets goes as follows.

Time = United States Law/Code

Cohen is **TELLING THE APES HOW THIS IS ALL LEGAL AND WHY WALL STREET NEEDS TO PAY.**

Date = Famous Event(s) on said date.

Famous events to showcase that **TYRANNY AND CENTRALIZED GOVERNMENT R FUK.**

Famous events to showcase **COLLABORATION AND DECENTRALIZATION R GUD.**

Picture = wen moon/A personal coded message from Cohen.

Wait, are you missing something Bestie?

Nope.

When is [Superman's Birthday?](https://www.google.com/search?q=when+is+superman%27s+birthday+comics&rlz;=1C1CHBF_enUS878US878&oq;=when+is+superman+bir&aqs;=chrome.2.0i512j69i57j0i22i30.6879j0j15&sourceid;=chrome&ie=UTF-8)

I mentioned Godzilla.

Cohen does love his family and friends after all.

Those two tweets spoke to me more than any of them.

Cohen made those two tweets special for a reason.

>!TA DR: March 1. Or 4th. Or the Ides of March. Around that time.!<

Cohen isn't going to let you precious apes wait one second longer than you have too.

Problem is he has to deal with the gag order. That's it. No Science or Math to explain how this will happen.

Just Cohen.

Trust the charts if you wish.

I'll trust the chair.

Game on ANON.

I QUADRUPLE DOG DARE YOU COHEN. PROVE ME WRONG.

Remember November 15th, Ryan.
