So I just got my Computershare letter in the mail confirming my transfer, but I can't seem to create an account on the investor center. The "Select a company you own shares in:" field won't auto fill GME - GAMESTOP CORP so I can't select the correct stock when trying to register. That is the only field I think there could be an error with, everything else is pretty straightforward.

Did I miss something obvious? Is there a resource that can walk a smoothie like me through the process?
