I woke up Sunday morning and was reading post after post about whether the broker has “real” shares or not.....

So, I logged into Fidelity(at 8:50am) and got first in the chat queue. And by 9:05 my GME was 100% DRSd!

Real or Fake? Who cares! If you are able to DRS your bananas, do it! DRSing a share is the only way to ensure what you hold is authentic and away from the CRIME we’re seeing this morning.

Think of it like this-

DRS is basically the same as an NFT. Just came way before NFTs. It’s just a legal way to prove you own something.

Be safe out there Apes...
